Preparation / Set:

Attention / Motivation:

The field of pre-hospital emergency medical care is an evolving profession in which the reality of life and death is confronted at a moments notice. EMT-Basics work side by side with other health care professionals to help deliver professional pre-hospital emergency medical care. An understanding of the EMS system is essential for delivery of appropriate patient care.

Objectives:

At the completion of this session, the student will be able to:

1. Define the components of the Emergency Medical Services system.
2. Define the EMT-Basic's position within the EMS system

Session Overview:

- C Discuss access into the EMS system
 - C Illustrate the hierarchy of the EMS system
-
