Course Description:

The two-day ACLS course is designed for health care providers who have medical training in the treatment of cardiopulmonary emergencies. This course uses a case-based approach combined with group teaching and evaluation stations designed for adult learners.

Objectives:

- Review BLS skills, including one and two rescuer CPR
- Learn and implement the ACLS algorithms for each of the 10 core cases
- Describe the signs and symptoms of respiratory failure, acute MI and cerebral vascular accidents (CVAs)
- Practice advanced airway skills (endotracheal intubation)
- Interpret EKGs and acute myocardial infarction patterns using 12 lead EKGs
- Identify the indications and use of cardioversion, pacemaker, and manual defibrillators
- Recognize ACLS drug indications / doses / precautions

CEUs: 16 hours

Required information:

ACLS Provider Manual, available at the Arapahoe Community College bookstore

Evaluation:

Graded Events	Grading Scale
Written Evaluation Practical Evaluation	84% Competence as defined by American Heart Association
