Course Description:

This 8-hour program is designed to familiarize preceptors with their roles and responsibilities and the EMS Program expectations. The goals are to improve the quality of the precepted experience for students and preceptors and to improve the consistency of objective assessment of student performance.

Objectives:

At the completion of the course the participants will be able to:

1. Define the role of preceptor
2. Identify the responsibilities of a preceptor in the appropriate clinical setting
3. Identify techniques to facilitate learning
4. Identify how the preceptor role integrates and interacts with the EMS education program
5. Provide objective assessment of student's performance

CEUs:

8 Continuing Education Units

Required materials:

Preceptor manual will be provided in class.
